Viktor Shabanov

Senior iOS Engineer

EXPERIENCE (9+ YEARS)

Senior iOS Engineer
Palta LTD
Apr 2022 - Present, full-time

Work for the company's project in the field of personal health for weather-dependent people. Engineering leadership position in the complete design and development cycle of the project's core ecosystem and particular features. Interaction and communication with a UI/UX team and Backend team to provide ideas and improvement suggestions for the product.

Senior iOS Engineer
Velvetech LLC
May 2021 - Apr 2022 - 1 yr, part-time

Design and development of an application in the field of personal health. Leading the process of a complete redesign of an existing application. Implementing improvements and providing long-term maintenance.

Senior iOS Developer
OZON
Nov 2021 - Feb 2022 - 4 mos, full-time

Developed and maintained critical SDKs, frameworks, and internal tools for the company's flagship product. Ensured development stability and success of the main product through my contributions as a core team member.

Senior iOS Developer
Distillery
Nov 2019 - Nov 2021 - 2 yrs 1 mo, full-time

Developed, maintained and enhanced mobile applications for customers in the finance, health and entertainment sectors. Successfully updated legacy projects written in both Objective-C and Swift to ensure optimum performance and functionality. Worked as a key member of development teams, demonstrating exceptional leadership skills when required.
